

ABOUT SPEEDCAST

Speedcast International Ltd (ASX: SDA) is the world's most trusted communications and IT services provider, delivering critical communications solutions to the Maritime, Energy, Mining, Media, Telecom, Cruise, NGO, Government, and Enterprise sectors. With more satellite capacity than any other provider, Speedcast enables fast, seamless pole-to-pole coverage from a global hybrid satellite, fiber, cellular, microwave, MPLS and IP transport network with direct access to public cloud platforms. The company also combines differentiated technology offerings to provide smarter ways to communicate and distribute content, manage network and remote operations, protect and secure investments, and improve the crew and guest experience. With a passionate customer focus and a strong safety culture, Speedcast serves more than 3,200 customers in more than 140 countries. Learn more at www.speedcast.com.

MISSION

For organizations whose operations and people depend upon remote communications, Speedcast is the ideal global partner, bringing together the best high-speed communication networks with a suite of networking and application innovations to deliver a consistent, superior customer experience any time, anywhere.

Speedcast Atlas™

Speedcast Atlas is our world of services and innovations for developing fully managed, end-to-end solutions for customers around the globe. Speedcast Atlas offers a wide range of services, including:

Customer Experience Management

At the heart of Speedcast is a deep commitment to provide the service and support your operations require. We work side-by-side with you from solution concept to implementation, through all evolutions of your business to deliver everything from a tailored design to system installation and management.

Connectivity

Speedcast Atlas unites our diverse connectivity resources into a seamless network experience. You can trust your most critical operations to run effortlessly on the world's largest remote communications network, with capacity from more than 95 satellites and 40 teleports, layered with redundancy across fiber, microwave and LTE.

Network Management

As networks and satellite connections grow, network management becomes crucial for business operations. Speedcast's intelligent network management solution makes sure you have reliable, high-quality connectivity when you need it, where you need it.

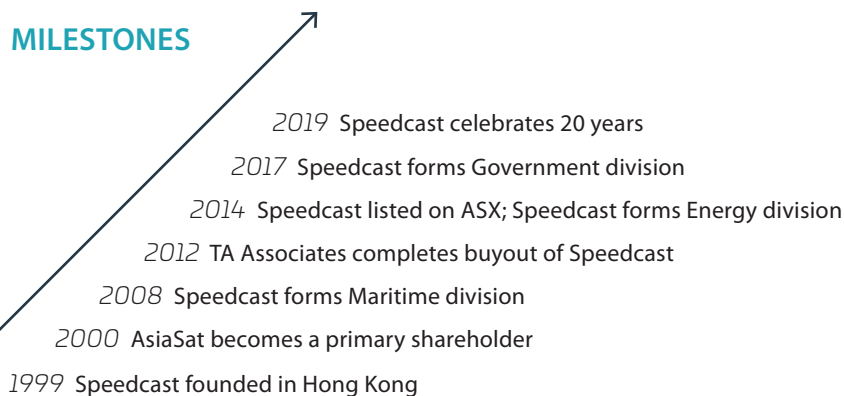

Applications and Solutions

Speedcast Atlas provides full access to our portfolio of applications that cover a comprehensive range of voice, data, network and content requirements.

Professional Services

With our professional services, you have ready access to our knowledgeable team of experts, who deliver network and system integration, innovation and testing lab services, and digitalization and IoT services.

MILESTONES

OUR CORE VALUES

Customer Focused

We take personal accountability to respond to customer requests in a timely and straightforward manner.

Agile & Responsive

Driven by an internal passion for excellence, we bring positive energy to every situation. We quickly recover from setbacks with renewed energy and creatively turn problems into opportunities.

Success Through People & Safety

Operating on the core belief that it's the people behind the technology that makes the difference, we make the health, safety and well-being of our employees and customers our top priority.

Team Spirit

We work together to pursue our goals and objectives; we support each other and focus on the right outcome.
