

Speedcast SmartKit™

Portable, global and easy to deploy

THE CRITICAL COMMUNICATIONS COMPANY

The Speedcast SmartKit™ provides VSAT services on the go. This all-in-one kit is designed to deliver high speed communications services to areas where standard networks can't reach. The SmartKit includes a 1.2 meter antenna, a modem, a network device, Wi-Fi, an IP phone and UPS. Everything is packaged in airline approved cases, making it the ideal on-the-go solution for first responders or remote workers in media, mining, energy, government or NGOs.

PORTABLE

- The SmartKit contains a lightweight antenna and peripheral equipment packaged for quick turnaround to any global destination
- Assembly time is less than 15 minutes with minimal maintenance

EASY TO DEPLOY

- The SmartKit is designed to be set up by one person
- Comes with SIGMA Net, which is simple to install and is integrated with existing infrastructure
- A cloud-based network, email and firewall management options available

GLOBAL

- The SmartKit provides high speed internet and phone services from anywhere in the world
- Features global Ku-band coverage
- Has connectivity speeds up to 5 Mbps, delivered with one VoIP phone over one satellite connection
- Upon ordering, the SmartKit is couriered to your door step

OUR PORTABLE, ALL-IN-ONE, VSAT SATELLITE SERVICE PROVIDES YOU WITH HIGH SPEED COMMUNICATIONS CONNECTION WHEREVER YOU GO.
