EXPLORER® 500, EXPLORER® 300
Software release version 3.05

Subject:

Please be informed that a new software version 3.05 has been released.

Priority:

- **MEDIUM:** It is recommended to apply this change / initiative to all units in stock. For units sold it is recommended to apply this change / initiative next time the system(s) is inspected.

Changes from software version 3.04 to version 3.05:

- Support for new MEAS satellite
 - Satellite added to default satellite table and web interface.
MEAS included in satellite table now also after a factory reset.
In previous sw versions, MEAS/satellite table is updated from network.

Action:

Download file **E500_300_ver305.zip** located at Cobham SATCOM Sync partner login:

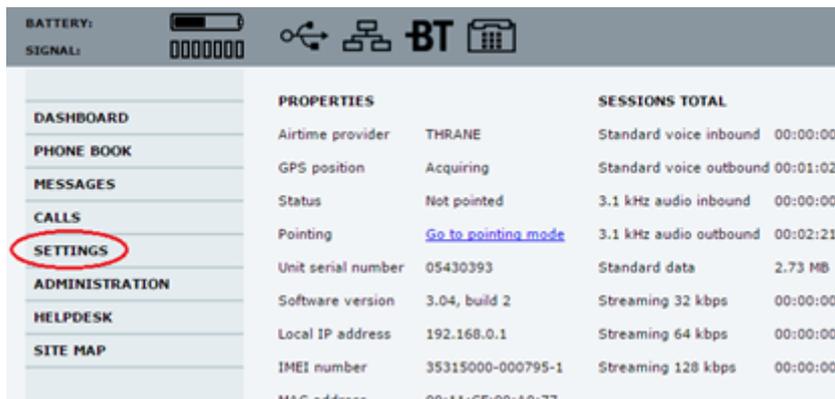

<https://sync.cobham.com/> - or at the Cobham SATCOM Sync Support section:

<https://sync.cobham.com/satcom/support>.

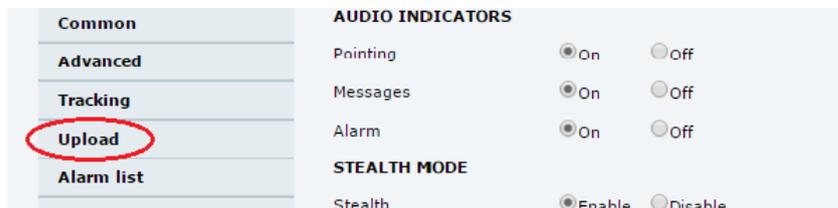

Save and extract to your hard drive.

1. Make sure the terminal is switched on and connect the Ethernet cable to your PC
2. Open your web-browser and open the web interface of the terminal at address <http://192.168.0.1/>
3. Select **SETTINGS**.

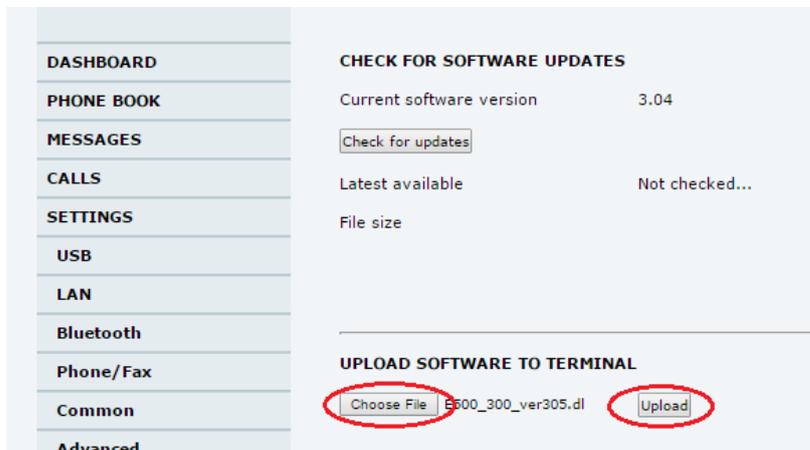

Continued...

4. Select **Upload**.

5. Click **Choose File**, then locate and select the software file stored and extracted to **E500_300_ver305.dl**.
Click **Upload** and verify that the upload is in progress.

6. When the upload is done, the terminal will reboot and browser will show "Rebooting..."
Select the address <http://192.168.0.1/> again and verify that the software version is listed as **3.05, build 1** in the **DASHBOARD** under **PROPERTIES**.

Continued...
