LAUNCH Internet

Reliable, Fast and Fully Managed

Powered by

AUTHORIZED INTEGRATOR & RESELLER | STARLINK

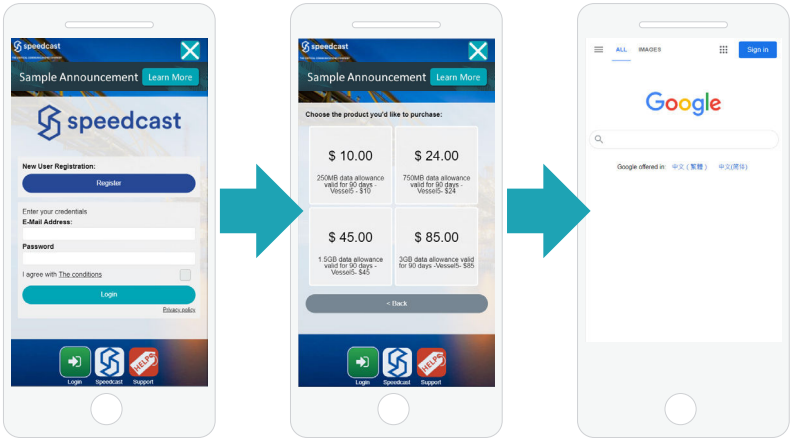
Speedcast LAUNCH℠ Internet is the front-runner in providing remote staff and crew — whether located on maritime sites or spread across multiple land sites — with fast and reliable internet access at the industry's most competitive rates.

With LAUNCH Internet, Speedcast manages and provisions all aspects of staff and crew usage and satellite connectivity, relieving the remote site operator of any administrative burdens and monthly commitments. Users can simply select Wi-Fi packages and make purchases through the easy-to-use LAUNCH Internet Portal. The flexible portal can be custom configured to the layout needs of the owner or operator and provides access to comprehensive self-service and support options.

A complete managed remote staff and crew Wi-Fi service from installation to support.

FEATURES:

- Easy self-service portal via Wi-Fi network
- High-speed, always-on internet service
- Flexible service-model options
- Multiple end-user payment mechanisms
- Supports multiple language options; including, but not limited to English, French, Italian, Spanish and German
- Can be deployed independent of corporate networks



- Access to Wi-Fi
- Open LAUNCH Internet Homepage
- End-users create a single account to access service

- Internet data or voucher options
- Payment via major credit cards

- Remote staff and crew internet
- End-user accounts accessible from any site connected to internet

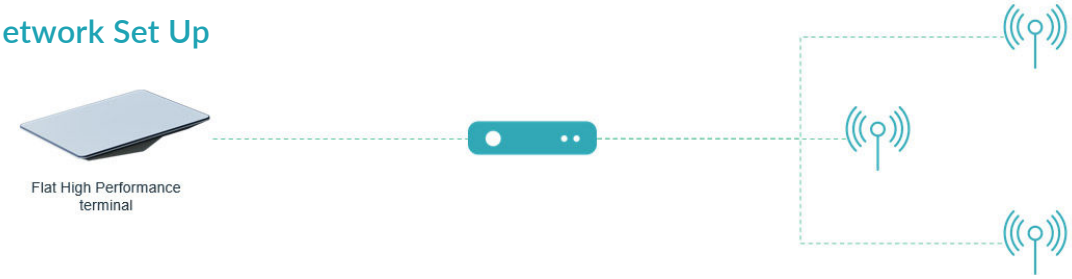
Network Set Up



VSAT Terminal

Starlink Hardware and Services

MikroTik Router

- Hotspot Gateway
- Hosts and manages remote site splash page
- Communicates with RADIUS server for AAA
- Communicates with Payment Gateway for Wi-Fi online sales

Access Points

Provides Wi-Fi coverage in specific designated areas

HOW DOES IT WORK?

- Set up Starlink services at the remote site, either by purchasing or leasing the hardware from Speedcast.
- Speedcast offers fully managed service, from installation to support.
- Monthly Data Plan is accessed using voucher system.
- Starlink service opt-in is managed by Speedcast, so customer will not be faced with overage charges.
- Once Monthly Data Plan is consumed, users can purchase additional data packages via the self-service online payment portal

SPEEDCAST LAUNCH INTERNET – End User Portal and Customer Reports

End users get access to data usage statistics and tools to help manage and get the most out of the data packages they buy.

Customers can view reports to monitor crew network bandwidth, utilization, and manage remote site morale and welfare requirements.
